

Road Fabrics, Inc

Continuing Education Lunchtime Seminar

Road Fabrics' continuing education lunchtime seminar is a free service that provides training on the latest information, technology and applications of our products. Presentations are tailored to meet your needs. If you want a session exclusively on TruPave Engineered Paving Mat, we can do that. If you would prefer for us to cover a variety of topics, we can do that as well.

Generally, sessions last one hour depending on the information requested. Continuing education credit hours are available depending on the duration of the session. Sessions can take place at any time of day – whatever is convenient for you and your colleagues. Just review the list of topics we offer, contact Road Fabrics, and we will schedule your session.

At a time of tight budgets and limited financial resources, clients in both private and public sectors are looking for the most cost effective ways to deliver a quality product and project. This program is designed to provide you with the latest technological advancements in our products. Ultimately this will give you options as you work to deliver your project on time and on or under budget.

If you are interested in scheduling a continuing education seminar, contact us at: 630.293.3111 or patw@roadfabrics.com and we will begin scheduling your session.

Available Lunchtime Seminars:

- Porous Pavement Systems – GrassPave and GravelPave
- Pavement Interlayers – Using synthetics in your paving
- Subgrade and Base Stabilization – Using Geogrids to stabilize your subgrade
- ...or you can tailor your own. Just go to www.roadfabrics.com and choose any product we offer.
