Road Fabrics, Inc.

CONSULTING ENGINEER:

Zimmer Consultants, Inc.

INSTALLED BY:

Road Fabrics Inc.

PAVING CONTRACTOR:

Payne & Dolan, Inc.

AREA INSTALLED:

10,000 sq. yds.

INSTALLATION DATE:

October 2009

GLASGRID PAVEMENT REINFORCEMENT CASE STUDY

Lot F at Gurnee Mills Mall had developed numerous longitudinal and transverse cracks. The malls engineers chose GlasGrid 8501 Pavement Reinforcement System to retard reflective cracking from appearing through the overlay and increase pavement life. GlasGrid 8501 was installed on a leveling course and topped with a 2" surface course.
