

PROVEN TO PERFORM IN THE PLANT, ON THE ROAD, AND OVER TIME.

FIBER REINFORCED ASPHALT PAVEMENT PROVEN TO PERFORM

60% AVERAGE INCREASE IN CRACK PROPAGATION RESISTANCE

over **40%** AVERAGE INCREASE IN FLEXIBILITY INDEX

AVERAGE INCREASE IN RUTTING RESISTANCE **147%**

TESTED & PROVEN

DOT approved in multiple states, tested in multiple university studies, and used around the globe, FORTA-FI has proven time and time again to be the smart choice in reinforcement!

REINFORCEMENT THROUGHOUT

Specially designed for maximum dispersion for full reinforcement throughout the pavement, allowing you to forgo traditional fabrics and saving you time & maintenance!

UNMATCHED SUPPORT

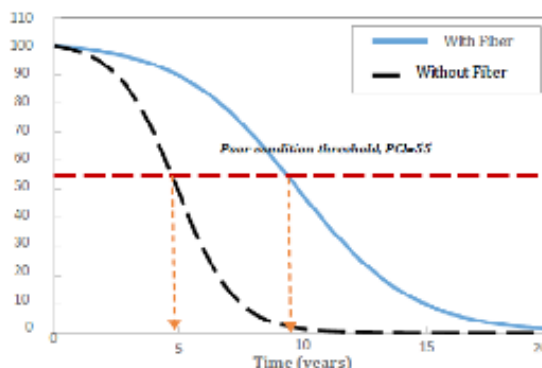

We have engineers on staff to assist with your designs and specs. We're more than just a manufacturer, we care about the project every step of the way.

PAVEMENT DURABILITY (PCI)

The following results are based on three different real world projects that were given Pavement Condition Index (PCI) values representing the overall condition of the roadway surface.

Project	Project Location	Age (yr)	Thickness/ Binder	PCI Control	PCI FORTA-FI
Interstate	I-81 Lackawanna County, PA	2.5	1.5-in PG 64-22	73	93
State Route	SR 3036 Lancaster County, PA	4.0	2-in PG 76-22	72	95
City Road	City of Costa Mesa, CA	5.0	10-in AC Full Depth	80	93

Full research reports available, please contact 800-245-0306 for more information.

up to **5 YEAR**
LIFE EXTENSION
PER ASTM D6433

“We like to joke that our roads are now bulletproof.”

“...the minimal upfront cost of fibers makes this product attractive because the cost can be recouped by an approximate 1-year extension in service life”

“If you could spend a little more upfront to install a better roof that would last several years longer than taking a short cut, wouldn't it be worth it? Shouldn't that type of thinking inform the decisions behind maintaining this country's infrastructure and the health of our highways?”

ASPHALT PAVING IS PREFERRED for paving roads, parking lots, and other projects. Asphalt pavement offers the flexibility needed to accommodate imperfections in the underlying surfaces. In addition, asphalt construction projects are less time consuming and less expensive. Whether new construction or repair, asphalt wins every time. With FORTA-FI in the mix get longer-lasting performance and substantial savings of both time and money.

UNMATCHED TECHNICAL SUPPORT

We want to see your project succeed, which is why we offer assistance throughout every step of the process - selling, designing, addition, and placement.

We pride ourselves on maintaining an up-to-date literature database featuring design guidelines and technical documents readily available.

FORTA IS BUILT ON RELATIONSHIPS, EACH WITH THE SAME GOAL: CREATING BETTER PAVEMENT
